

INFOPACK HOSTING ORGANISATION (HO)

Name of Hosting organization	Zavod Knof, s.po.
Number of volunteers and gender	3
Sending country	Preferable Russia and EX YU
Theme(s)	event organizing, social entrepreneurship, social media, interculturality, sustainability, creating sustainable products and services, experimental recycling
Dates	2022, April-November
Link to quality label	KNOF Zavod za kreativni razvoj Posavja - socialno podjetje European Youth Portal (europa.eu)
Title	Youth for climate solutions
Contest and environment	Volunteers will be working in Krško, a town close to the Croatian border with population of 7.000 people. The project is about popularization of sustainable lifestyle, not only promotion but also developing new sustainable products, services, and business models. Volunteers are also organizing events, supporting promotion, getting familiar with social entrepreneurship and also try to develop their own ideas. The volunteers will have a chance also to get to know other social entrepreneurs of Slovenia and beyond.
Accommodation description	Volunteers will live in a nearby town Sevnica (20km from Krško, train connection every hour). Accommodation will be provided in a spacious, fully furnished, and equipped apartment with kitchen, living room, 1 bathroom and 3 separated bedrooms. Quiet garden and forest area is all around and shops are available in 7 minute walk, the same goes for the train station. Swimming pool (operating in the summer), sports center and pub are across the street of the flat which makes it easy to interact with locals.
Detailed description of activities	Activities in details: Active contribution to the daily operation of the association: weekly meetings, brainstorming sessions, dropping in new ideas and realizing them. Organizing of events, workshops, presentation stands in connection with sustainable lifestyle, arts (music, creative arts), non-formal education, active citizenship, circular and social economy. Developing their own ideas with the help of mentors and using the available infrastructure: sewing workshops, wood workshops, plastic and textile recycling machines in the FabLab, testing ideas with visitors of our shops Working hours: 7-8 hours a day on average
